PECKHAM AND OLNEY.

The two able lawyers, honest men and stanch Democrats whom Gov. CLEVELAND ointed District-Attorney over Assistant PELLOWS'S head-WHEELER H. PECKHAM and PRIES B. OLNEY-are both warm supporters of Mr. NICOLL.

Both these gentlemen know the require ments and the temptations of the District-At-torney's office. Both know Nicoll and FEL-Lows well. Both are disinterestedly seeking the welfare of the city and the honor of the eratic party. Both, therefore, were mazed and indignant at the knifing of at and the preferment of Fallows by the County Democracy Bosses. And both on their convictions of Cuty instead of wish the Bosses. TO MR. POST.

To Louis F. Post: You have spoken in strong and ringing words of the necessity of rebuking boodleism and overthrowing the corrupt machine influences. Why will you neglect your golden opportunity to put in practice what you speak in theory?

Your ability and good intent is not questioned. But in this fight NICOLL stands in the breach. It was he who convicted SHARP. who was "knifed" by Boodling Bosses and Bossing Boodlers, who in this juncture is the exponent of "No quarter to public thieves." The issue is on his retention or rejection.

The result lies between NICOLL and FEL-Lows. Nicoll's election is inevitable, but you can render it doubly emphatic. Your supporters are opposed to Fellows. The defeat of Boodleism is their earnest purpose. Then why divide the opposition to Fellows by remaining in the field?

Your party can make a good mark on its other candidates. Your withdrawal in Mr. NICOLL's favor would prove its sincerity for the public welfare, and gain for you an unstinted measure of honor.

Don't miss your opportunity, Mr. Post.

THE OFFICE BEEKS THE MAN. The stabber of one Presidential candidate and the besmircher of another has the sublime impudence to talk of the "obliga-

tion of a man who goes before a convention and asks for a nomination." Mr. Nicoll never went before a convention, nor in any other way asked a nom-

instion. Mr. MARTINE gave it as the reason why Mr. NICOLL was not nominated, that he did not ask to be. Mayor HEWITT says that if Nic-OLL had told " me " that he wanted the office.

" I " would have favored him. Do the people wish to indorse the theory that a man must beg for an office or buy it in order to be nominated? Shall the people have no right to an honest man's services unless the Bosses see fit to nominate him?

This is a case where the office seeks the

BAVE BROADWAY.

Wake up, gentlemen, if you want to save Broadway from disfigurement by an "L" system. In Judge Dononur's eleventh-hour appointment of a commission to estimate the amount of compensation due the city the Metropolitan Transit Company has taken what may prove to be a big stride towards the gobbling of our magnificent thoroughfare.

But opposition to this and similar schemes can be permanently effective only when supplemented with some more acceptable plan. The alternative to the sacrifice of Broadway is the speedy construction of an underground or viaduct road. The consensus of expert

opinion favors the former. Then hurry up the underground road, and

save Broadway.

The Tween check and the "welcher's" plea render further argument on this point needless. But Mr. OLNEY also says that he has "yet to see stated any good or substantial reason why Mr. NICOLL should not have received the nomination of the United Democracy." Mr. Olney has not seen it because there was and is no such reason.

The real reason was because Boss Power would not permit it. And he would not permit it because NICOLL had "made New York too hot for Boodlers." The election will make the city at once too hot for Boodlers House guest.

The editor of the Herald:

The editor of the London Sportsman, acting under the request of the American correspondent of that paper, has requested the Comptroller of Customs to pass the Sullivan belt, emblematic of the champlonship of the world, free of all duty. After consideration, the Comptroller of Customs has stated that he will demand a duty of 17 shillings for every ounce the belt weighs. Much indignation is expressed by all the sporting men of this country at the comptroller's action, and if he lossiss that a duty must be paid on the belt that valuable trophy will be returned immediately to Boston by the steamer Cephaloma, which sails in a week.

The gold in the Sullivan belt weighs 3,000 cwt., or aboutone hundred and fifty ounces. Beside this there is some weight in the few less than a hundred diamonds with which the belt is set. If the Comptroller of Customs insists on collecting the duty Champion Sullivan would be obliged to pay no less than \$600 for the privilege of taking his belt into England. This duty seems an unreasonable one and will never be paid.

The terms under which he received it compel him to keep it in his possession while alive. At his death it falls to his heir, and it never can be disposed of while he has a relative living. This being the case, it would fish.

MONTREAL, Nov. 5 .- The relations between the legal tribunals of Ontario and Quebec are becoming more strained every day. The celebrated Shepherd case, which formed a precedent for not indorsing McGarigle's arrest, and has since been used in the Bethune case, seems to have clogged up the wheels of justice so badly that the Quebec authorities are giving the matter up and letting the province ol Ontario constitute itself as an asylum for criminals from this Province.

GIVING UP THE FIGHT. the Brassworkers Going Back

Work on the Old Terms. The struggle of the United Brassworkers o enforce the 55-hour rule has resulted in their defeat, mainly, it is said, through lack of support from the Knights of Labor. Small forces of the men locked out from Archer, Pancoast & Co.'s F. McClewee's, Travis & Murray's and several other smaller shops returned to work this morning on the old terms of fifty-nine hours a week. The remainder of the locked-out hands will resume work on Monday.

Nine shops in all were involved. The 250 hands of the manufactory of Oxley, Giddings & Enos are still on strike for the fifty-five hour rule, and there is no prospect of an early settlement, the men declaring that they will not return to work until the firm grants the demand. said, through lack of support from

An Amnsing Incident Which Was Not on the Programme at the Lyceum-Abbey to Bring the Meiningen Company to America

> Y a bit of small heroism Miss Dillon carried out her scene as usual and furnished amusement not on the programmes during the performance of "The Wife" at the Lyceum Theatre on

Thursday night. Miss Dillon takes particular pride in the scene in pride in the scene in which she climbs a tree with Mr. Dickson and chatting prettily, eats a real apple with him. In climbing the

ples fell to the ground, though Miss Dillon did not notice that. Thomas Gossman, the property man, standing at the wings, saw the mishap, but would do nothing. When the cue came for Miss Dillon to snatch an apple and take a big bite from it, she seized one of the property apples, which are made of thin painted papier maché filled with sawdust. Miss Dillon did not look at it, but took the hog bite, penetrating to the sawdust, which fell over the front of her dress. She made a wry face and the audience tittered. Miss Dillon was furious, as she is extremely fond of this scene and practiced climbing up the tree for a long time before the production of the piece. But her cup of anguish was not yet full. Thomas Gossman was in a funny mood. When Miss Dillon came off the stage mood. When Miss Dillon came off the stage he informed her that the paint on the property apples was deadly poison. Even Manager Frohman could not resist the temptation of teasing the poor little lady. He declared he would send for a doctor, and announced that Miss Dillon's underlady should be held in readiness. When the actress was on the verge of hysterics, the gentlemen condesendingly informed her that they were only joking. "Oh, I knew it," she said, fibbing gently, "But even if the apple had been poison, I'd have eaten it rather than miss that scene. scene.

Miss Seligman, who has been engaged to play the part of Ustane in "She," is related to the wealthy Seligmans of this city, and the announcement of her engagement has caused much talk. For the last two years she has been making an effort to appear in public. Miss Seligman appeared in a performance of "Iolanthe," given for charitable purposes at the Academy of Music sometime ago, and she has been very persistent in her attempts to secure an engagement. Ustane in "She" is the young girl who falls in love with Leo and who is wedded to him by a kiss, according to the custom of the Amhaggers.

Henry E. Abbey has made arrangements to bring the entire Meiningen Company to this country next year. It will be remembered that a year ago an effort was made to secure this attraction for the United States by a syndicate represented by Wesley Sisson. Sufficient money was advanced to that gentleman to permit of him to go to Europe to treat with the company. He was unable to make arrangements with them, owing to some financial difficulties. The subscription which was being made here did not promise very satisfactory results. This is an important undertaking for Mr. Abbey. He will open in New York at the Star Theatre, and play in the principal cities only. This enterprise, with Mary Anderson and Coquelin, also in the United States, and Patti and Bernhardt abroad, will give Mr. Abbey plenty of work.

engagement with "Monbars" in Newark. This play is an adaption from the French, Monbars is the name of the hero. Augustus Pitou, Mantell's energetic manager, is very enthusiastic about the prospects.

The Sparks Company will present "A Bunch of Keys" at the People's Theatre next week and will give a special matinee on Election Day.
